### PROFILE

My name is Afridi, and I am a software developer looking for a job opportunity. I have experience in various programming languages and software development methodologies. Enthusiastic and motivated individual with a foundational knowledge in web development (HTML, CSS, JavaScript) and programming languages (Python, PHP). Adept at learning new technologies quickly and applying problem-solving skills to diverse challenges. Strong communicator with excellent teamwork capabilities. Seeking an entry-level opportunity to utilize my technical skills and contribute to innovative projects in a collaborative environment.

### INTERSHIP EXPERIENCE

#### • CODGNAN

Web Developer

- Worked on the Mail Inboxify project, where I developed the frontend.
- Gained valuable experience during my internship at Codegnan, enhancing my software development and coding skills.

#### • Edu skills

AI-ML

- Completed a virtual internship focused on AI and ML, gaining hands-on experience with building and implementing basic machine learning models, data preprocessing, and algorithm optimization using Python..
- Gained valuable experience during my internship at Eduskill, enhancing my skills in artificial intelligence and machine learning.
